Beginning artists . . . Members of Mrs. Wright's art classes gather at the gym steps to sketch life in the hallways.

Quarterback sneak . . . Senior Chris King kicks off a great year of football against Northwood.

A lively bunch . . . Mrs. Wright and Jessica Neece clown around at Halloween; Yvette Bush, Shannon Evans, Kristen Dye, Heather Kenyon, and Kelly Salyer know who rules pep rallies; Stephanie Mullins, Amber Phillips, and Alesha Roberts show English 11 rocks during Homecoming; and Roy Couch and Brandon Bush think Fair Day is just ducky.

OWL and About

Student Life Took All Kinds

What's Student Life about anyway? Isn't that the age-old question everyone's trying to figure out as they plod through their existence? No. That's the question, "What's the meaning of life?" Close enough.

As students trudged through each day of class changes, tardy bells, and slamming lockers, Student Life became the highlight of the day. Student Life was, well, what breathed life into school.

Between the books and tests were activities that got everyone moving. The year kicked off with one of the biggest Student Life events of all, Football Homecoming. The year continued with other major occasions such as the Halloween Contest and the Prom. Events such as these were traditions. Traditions that the entire student body looked forward to. Traditions that brought life to school routine.

But, mixed in with major happenings that everyone expected were the little slices of life that were just as important — experiences in the hall, at lunch, and outside of school grounds.

In addition, fashion, jobs, and hang-out spots were important facets of all kinds of students' lives. It seemed that students were living it up everywhere, and sometimes the camera was there to capture the moment.

Life as an artist . . . Freshman Timmy Boyd displays his talents at Fair Day.

 Emerged on
 Homecoming Night

IN BLUE

Blue was definitely the color of choice during hectic Homecoming Week. Homecoming Night was no exception.

On game night, many individuals and groups emerged blue-ribbon winners. The new Homecoming Queen Valerie David had this to say, "I was really proud to be crowned Homecoming Queen, it was a great honor." In addition, the sophomore class won the float competition with the theme, "Men in Blue." At the end of the evening, the game also proved to be a success when the team prevailed over the Panthers in a well-deserved victory. It became obvious to those involved, that all the hard preparations were worth it once Homecoming Night arrived.

Homecoming Week Kicked Off

Homecoming Week kicked off with time-honored traditions. Monday, students sported their favorite headgear. Tuesday, they wore camouflage. Wednesday, some brave students went all out to make their hair wild. Thursday, others dared to wear their ugliest clothes. Finally, on Friday almost everyone could be seen wearing spirit-inspired blue and white.

Students also decorated their homerooms in an attempt to win a free breakfast from the SCA. The contest ended in a tie between Mrs. Atwood's and Mrs. Wright's rooms. "We racked our brains to come up with a decision about decorating our homeroom," said Jennifer Shortridge, from 207. Naomah Bush, an art class student, said, "The room showed school spirit and a good variety of creativity in our ability to use the resources we had to make the best Homecoming ever."

The week ended with the pep rally on Friday. The sophomores won the Six-Legged Race. The Seniors won both the spirit stick and the spirit link contest. The Senior football players participated in a tricycle race, which Jason Elam won. And, the King and Queen of Spirit Week, Matt Justice and Sonja Davis, were also crowned.

"Being able to express yourself in wild and crazy ways to show your true blue spirit was great!"

Students Set the Trends

STYLE

While junior Jessica Hicks exclaimed, "Fashion is cool!," Lucas Carpenter, a freshman, said, "Fashion is BORING!" Obviously, the students had many differences of opinions when it came to fashion.

"I like the cowboy look," said Charlie Osborne, a sophomore. In addition to this popular style, students could be seen sporting trends referred to as, "grunge," "retro," "preppy," "sporty," and "redneck." Many styles also came directly from the media, with shows like *Party of Five* and *Melrose Place*. Outfits were combinations of new and old, current trends, and unique creations.

There were more looks than could possibly be counted, which made even a walk down the hall quite interesting. The various styles proved exactly how different the students were, even at glance.

Fair Day Was a Fun Vacation from School

On The Farm

"Getting out of school!" This seemed to be the popular answer to the question, "What was the best thing about Fair Day?" Students not only enjoyed half a day off from school, but they also got to go to the Russell County Fair.

Eighth graders and freshmen competed for medals in the County Fair Day Games. All students were able to visit Old McDonald's Farm and pet the animals. Other favorite Fair Day activities included getting balloon hats made, hanging out with friends, and eating a variety of yummy fair food. Of course one of the main attractions was the carnival. *"The rides were fun and exciting!"* recalled eighth grader Adam Austin.

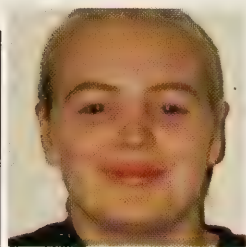

But the fact that students were treated to a mini-vacation seemed enough enjoyment for many fair goers. As sophomore Amanda Johnson explained, *"It was cool just getting out half a day!"*

Signing Party was the Best of the Year of Class

"The Bomb," as described by Carlos Dollarhyde, summed up the First Annual Yearbook Signing Party. It was an event no one wanted to miss. Amid all the chaos were games, free food, music, and extreme fun. It gave everyone a rare opportunity to get out of class and run wild. For three glorious periods, students were allowed to shed the shackles of routine and be teenagers.

However, in all of the fun there were those who were stranded in the seemingly bottomless abyss of teachers, homework, and tests. These select few were green with envy, and who could blame them for their jealousy? After all, who would not want to attend a party where Coach Poole and Coach Roberson were creamed numerous times with whipped cream pies? Even Mrs. Gibson, who came up with the signing party idea, got in on the action with a little pie in the eye!

Students Worked 5 to 9 the Money

Students found out as they grew older, depending on Mom and Dad for money wasn't enough anymore. To solve this money crisis, they realized they had to resort to getting a job of their own. The new responsibilities of having a job meant spending less time doing more enjoyable things. Working became a taste for life in "the real world" — that odd place they kept hearing so much about.

Their hard-earned money was spent in numerous ways. Some students had to make car payments; others bought new clothes; and a conscientious few put it back for college.

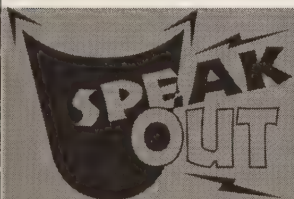

Paychecks were a trade-off, and work and school clashed at times. Just ask Stacey Hurd who said, "Work makes it very hard for me to stay awake in class." No matter how few hours of sleep they got, or how difficult things were, those responsible enough to make it work enjoyed being in the money.

In The Moment

Girls' Basketball Homecoming was a Special Night

Thirteen handsome young men in black tuxedos, accompanied by their escorts, graced the gym floor on the night of Girls' Basketball Homecoming. These attendants were chosen as representatives of each class and club. Jason Elam, escorted by Krystal Stevens, was crowned Homecoming King.

The most emotional moment of the night came as Valerie David, Shannon Evans, Heather Kenyon, and Kelly Salyers were honored for their five years of hard work and dedication to the Girls' Basketball Team. These four talented players, along with the rest of the team, played an outstanding game to defeat Twin Springs.

Unfortunately, the Boys' Basketball Homecoming had to be canceled due to snow. However, Senior Night *did* take place and B.J. Lasley, Chris King, Tyson Huff, Jonathan Snipes, Casey Ruff, Chris Sutherland, Adam Cook, T.J. Hall, Thad Patrick, Heather Kenyon and Kristen Dye got the recognition they deserved.

In the SPOTLIGHT

A Musical Tradition was Revived

As the curtain opened for *Give My Regards to Broadway*, anticipation ran high. This was the first school musical performed in over a decade.

After the first performance, however, the nervous jitters vanished, and everyone involved felt an immense sense of pride.

Students from the drama class and choir tried out for roles in the musical, and it was tough to choose only a few for the various speaking parts. After auditions, Rita Sanders and Mickey Collins were given the leads, and several other talented singers and actors were awarded the remaining roles.

After many long hours and late night rehearsals, they were finally ready. Under the direction of Mrs. Wallace and Mrs. Wright, the musical was performed twice for the school, community, and parents. The group did an outstanding job with not only their acting, but also with several choreographed dance numbers and many patriotic songs.

When the curtain finally closed, both the actors and audience were pleased that an entertaining musical tradition had been revived.

Prom Goers Had a Blast Down!

"Does my hair look alright?" "I hope he's going to be on time." "Did someone remember to make reservations?" These were just a few of the worries the juniors and Seniors had during prom time. Their worries soon faded as each couple arrived at the prom and began a night of laughing and boogin' down to the theme "My Heart Will Go On."

The garden and gazebo decorations were stunning and the food was delicious. For entertainment, some students performed as the Village People, and everyone got a laugh as the students and faculty performed the "Funky Chicken."

Though the theme and decorations were elegant and reserved, the prom goers left their worries behind and concentrated on just having a good time.

Pageants Provided Beauty and Talent

The pageant wasn't only an event for the participants, it was fun for the entire school. The contestants practiced day in and day out to make sure their dance routines were perfect and that their walk was flawless so they would not trip over their feet and fall. Other students not competing in the various pageants, worked alongside Mrs. Allen and the other business teachers by decorating the stage and running the lights.

When the curtains parted, the Junior Miss Contestants danced to "Boogie Woogie Bugle Boy" by the Andrew Sisters, while the Miss Contestants performed their own version of Madonna's "Vogue." Mr. Contestants did not need to dance — their hilarious wigs and costumes were more than enough entertainment!

Awards Day Honored Many

Students

Students have always excelled in both academics and athletics. Mr. Glovier, along with each coach, teacher, and sponsor, were pleased to honor those who excelled in an area on two different Awards Days.

First, students received scholarships, medals, and certificates for their academic achievements. In order to get an award, they had to excel in a certain subject. Seniors Rebecca Sutherland, Yvette Bush, Jari Glass, and Tyson Huff walked away with top honors.

On Athletic Awards Day, athletes were presented with letters, trophies, and college scholarships. The Claude "Pee Wee" King Memorial Award was presented to B.J. Lasley, and the Charlie Fulks Memorial Award was given to Yvette Bush. In addition, time was taken to induct the new officers of the SCA. As Awards Days drew to a close, winners and peers felt a sense of pride at this large number of honorees.

OUT of the Question

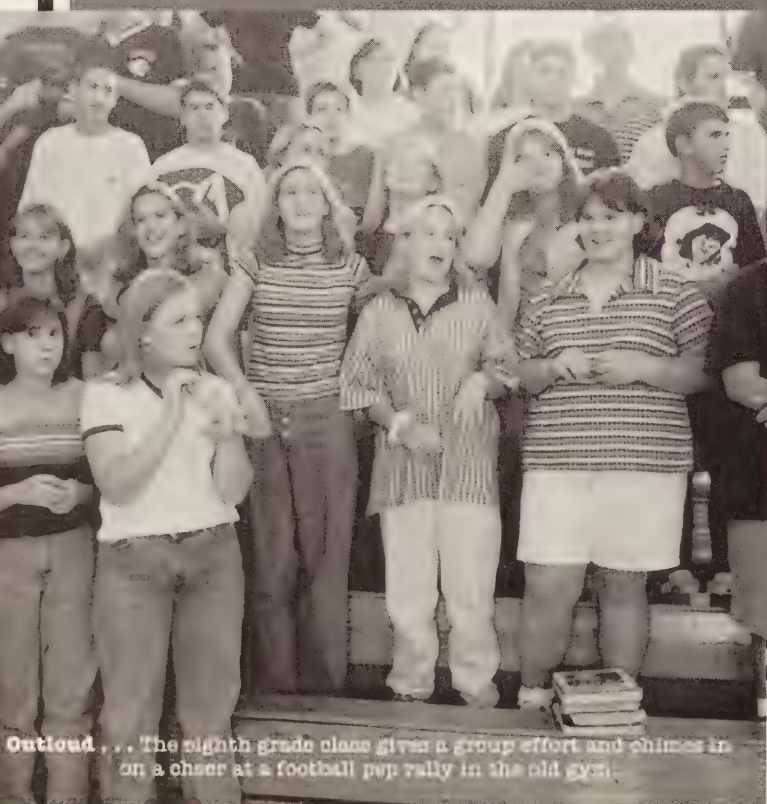

When 100 students were asked what awards they would have liked to receive at the Awards Ceremonies, 42% said a varsity letter; 36% said a scholarship; 12% said Physical Education award; and 10% replied a science or other academic award.

Winning the prize . . . Chris Steele, Shane Lambert, Vincent Fields, and Brandon Bush proudly accept their academic and athletic awards.

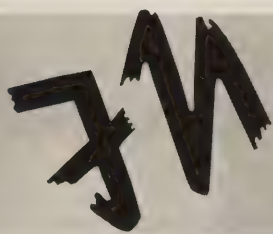

Thank you very much . . . Mrs. Breeding happily awards Brad Fields his Mock Trial Medal.

the Crowd

Being an Individual was Always
in Fashion

Caution! We are coming through! This was the resounding cry of the entire student body as they overstepped the boundaries and made their mark. Unique personalities stepped out of the crowd and proved that conforming to the norm was *not* cool.

A crowd consists of unique individuals expressing their own ideals, beliefs and sense of style. This was no more obvious than in the halls of school.

Students created a tidal wave of trendiness that washed over the entire school and community. They set their own rules, and then broke them as trends went out of style and back in again.

Then there were those who followed no trend. Again, the rules were broken. An individual here and there could be seen sporting styles that he or she created as an expression of his or her own individuality.

Individualism also determined which club one enjoyed and which classes he or she found interesting. Being a person, and not a member of the crowd, proved that whatever the style, belief or influence, people were just that — people. Whether it was the crowd of fresh-faced eighth graders full of hope, or the crowd of seasoned Seniors knowing it all, but learning some more — each class was a sum of its parts. Each crowd was *in*, no matter what the trend.

EIGHTH GRADERS

Class of 2002

As the eighth graders stepped in front of the cameras and onto the set where they would spend the next five years of their lives, they forgot their lines. However, the faculty and upperclassmen prepared and produced the cue cards. After some prompting and a few mishaps, their bodies thawed, their muddled minds began to function, and their stagefright slipped away.

Once they got started, there was no stopping them. They put on a performance fit for a king, or at least Mr. Glovier. Their critics loved them, their fans adored them, and even their competitors encouraged them. Everyone claimed that they were looking forward to the next four sequels.

The freshman class enjoyed many new and exciting things during their freshman year. The thought of being eligible to participate in varsity sports as a freshman was a goal of every athlete. Many were able to participate on varsity teams and receive a letter.

Academic goals were also made and achieved by freshmen. Several could be seen every six weeks listed on the honor roll, and others came out and competed on the academic team.

Being a freshman did not mean all sports and academics however. Freshmen took great joy in no longer being eighth graders, and they finally got to dish out a little of their own seniority.

SOPHOMORES

Class of 2000

Sophomore. Where did the word come from? Well, the expression is derived from the word sophumer, or sophum. What?!! In addition, the term sophomoric means, "immature and overconfident." Well, our sophomores may have been confident in the things they did, but not overly so. And, the tenth grade year *did* mark the beginning of many mature responsibilities, things like driving and involvement in the DARE program.

As sophomores began to drive and said no to drugs, they learned that although they were only halfway through their high school careers, they definitely were not even in the slightest way sophomoric!

Waking up in the morning, taking showers, and getting dressed for school was an every day routine for students. Then, one morning this group of students woke up and BOOM they were juniors with just two short years until graduation! It didn't take long for this group to decide they wanted to be the best ever!

"The junior class is the best. We finally get respect from younger people," said Wesley Mullins. Even when times got tough with fundraisers and endless studying, this large group of friends pushed onward. The juniors soon proved to themselves that they could be not only the last graduating class of the century, but also the best.

Juniors Shared Most Traumatic Stories

The juniors weren't known for their extensive vocabulary; however, they all knew exactly what the word traumatic meant. Some juniors began to think that having a traumatic experience was an every day occurrence that they simply could not avoid. No matter where they turned, trauma seemed to be looking them right in the eyes and ruining their lives. However, many seemed to think of Amanda Vicars as the Queen of Trauma. She was quoted telling about one of her many experiences, *"I was trying to jump on B.J. SENIORS

Class of 1998

What are Seniors? Is it a group of individuals who have finally reached their academic achievements? Becoming a Senior meant more than just overcoming intellectual milestones. It was also about finally getting those Senior privileges.

During their final year, Seniors finally got to walk into the auditorium while the entire student body rose in their honor. That was a feeling like nothing ever imagined! Other Senior privileges, like sitting outside after lunch or parking in the Senior area, were things that made these future graduates feel special. Although becoming a Senior was not only about special liberties, the fact that they were recognized as young adults made these upperclassmen feel exceptional.

GUESS

Who?

She Said HE SAID

Annuling the town charter was a major issue that affected the entire community in some way or another. It was a political event never before predated. The results laid in the hands of the voting public. The students became involved by conducting a mock election after understanding both sides and making their own decisions. The mock election resulted in 116 students voting no to the referendum, and 39 voting yes.

The actual election also caused quite a stir. Reporters and news crews descended upon the school to see just how students felt in regards to this issue. No matter which side they chose, students became involved in a community effort that will go down in history.

How do you think annulling the town charter will affect you once you have graduated?

Growing

Seniors Underwent Dramatical Changes

It seemed like only yesterday that a small group of rowdy little kids embarked on the journey of their lives. Yesterday had turned into thirteen years of memories they would never forget. This page is a reminder of all the great things that happened from kindergarten to their Senior year.

Over the years, members of the class of 1998 outgrew some of their clothes and hair styles, but they never strayed far from their unique smiles and trademark looks. Take a few minutes to see who you can match with his or her kindergarten picture. *Good Luck!*

Seniors Got Ready to
Go *out* into the
Real World

"I get to get my library card!," exclaimed Heather Kenyon. Turning 18 gave the Seniors a whole new perspective on life, even if it was just being able to get a card. The ripe age of 18 provided this elite group with new privileges and also new challenges.

Becoming legal was the best thing to happen to Seniors. "I can now play the lottery," said Tyson Huff.

For some, being 18 also meant leaving home and making more adult decisions. Getting a job and learning to wash their own clothes sometimes scared them, but they knew they were growing up and these responsibilities were unavoidable. Along with their 18th birthday, also came the end of their high school careers and the beginning of their adult lives.

Walking On Sunshine

Seniors Were

Imagine this! A dreaded English teacher, Mrs. Wallace, getting soaked with ice cold water. Well, if you were one of the lucky Seniors, it was a dream come true. Senior Day kicked off with fun and games as classmates played softball and volleyball, talked over old times, and munched out on some great food.

Heather Kenyon summed it up best when she replied, "Mmm, Mmm, the best part about Senior Day was the steaks!" Chefs de jour, Dudley McCoy and Randy Poole cooked almost 80 steaks for these hungry Seniors.

The day turned out to be hot, which made it just perfect for a water fight. Not one person left Senior Day dry.

"I think I got soaked two times," replied Jari Glass, drenched but smiling.

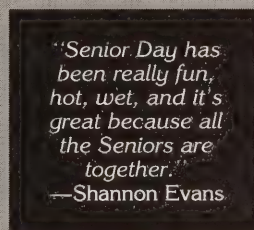

As the day ended, Seniors left the playground with happy memories, wounded ear drums, (thanks to D.J. Ray Wright), and soggy clothes and squishy shoes. They all agreed it was the most fun that they had shared as members of the Senior Class.

A Senior Day tradition . . . Angela Hughes and Krystal Stevens enjoy the great food and their day in the sun.

Marching Into The Future

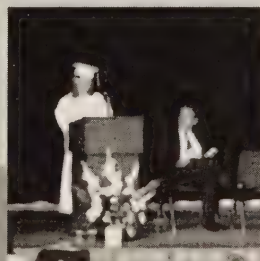

Baccalaureate Services Provided a Message of Hope

As the end of the year grew nearer, the Seniors began to feel anxious. Most were excited about leaving and getting a job, and others were excited about laying on the couch with the remote in their hands. However, when the Baccalaureate Service rolled around, a new feeling took over. Thoughts of doubt, and hopes about the future began to surface in the minds of these Seniors.

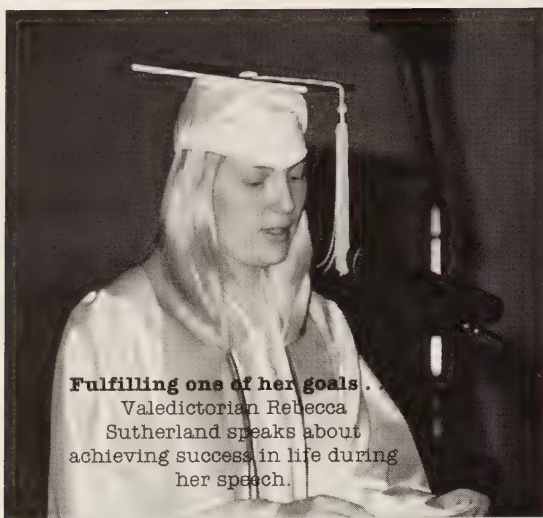

The program began as the Seniors marched into the auditorium a final time led by Juniors Jonathan Cozzolino and Travis Jessee. The assembly was welcomed by President B.J. Lasley, (below, far left), and then Natasha Ring delivered the Invocation.

"I wouldn't have been as nervous had I not forgotten my lines," said Secretary Lisa Jessee (below, 2nd from left), who introduced the vocalist, Mrs. Kim Wright (below, 3rd from left). Senior Class Vice-President, Heather Kenyon (below, 4th from left), then introduced the Reverend Mike Moore who delivered the Message and Benediction.

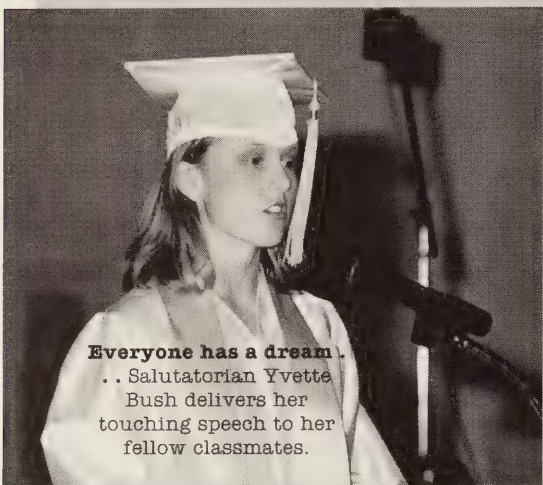

As tears of both joy and sorrow streamed down the faces of the Seniors, time stood still. They listened intently to Reverend Moore's message of salvation. Finally, the congregation stood once again to honor the group. And, as family and friends watched silently, the Seniors marched out of the auditorium as a class one last time.

During Tyson's high school career he was Secretary-Treasurer of his Freshman Class. He was also Vice-President of his Sophomore Class and served as Secretary-Treasurer of his Junior Class. He was a member of the BETA club for two years, and was also President for one year. He participated in the Student Cooperative Association for four years, and served as Vice-President for his junior year. He was honored as an AIMS Scholar, and he was also named as a WKPT Scholar Athlete of the Week. Tyson lettered in basketball, golf, cross country, and track. Tyson plans to attend Virginia Tech.

Moving On and Graduation was a Time to Reflect and Dream Looking Back

The Senior Class reached the end of a long arduous road which lasted for a mere thirteen years. The five final years seemed to last an eternity!

These students entered high school as eighth graders. It was a time to become familiar with the new surroundings, teachers, school work, and a time to create new and lasting friendships. The eyes of these young eighth graders were set upon the upperclassmen, yet, they seemed unaware that one day they too would be in that same position with many anticipating eyes set upon them. Then, to these young fledglings, graduation seemed to be nothing but a far off dream. However, on a cool summer day five short years later, they looked at graduation in a whole new perspective.

Ecclesiastes 3:1 states, "To every thing there is a season, and a time to every purpose under the Heaven." These Seniors began to understand their time was now, not later, and their purpose in life was just beginning.

Many were hesitant to leave behind the memories and friendships they had created through the years. They each possessed a sense of excitement to see what was in store for each of them as they moved into another land of unfamiliar territory, where once again they would be the new ones, but the hopeful ones.

School Functions

When asked his opinion on his work here, Herman Hodges, Computer Lab Director, stated: "I have enjoyed my 30 years here at CHS."

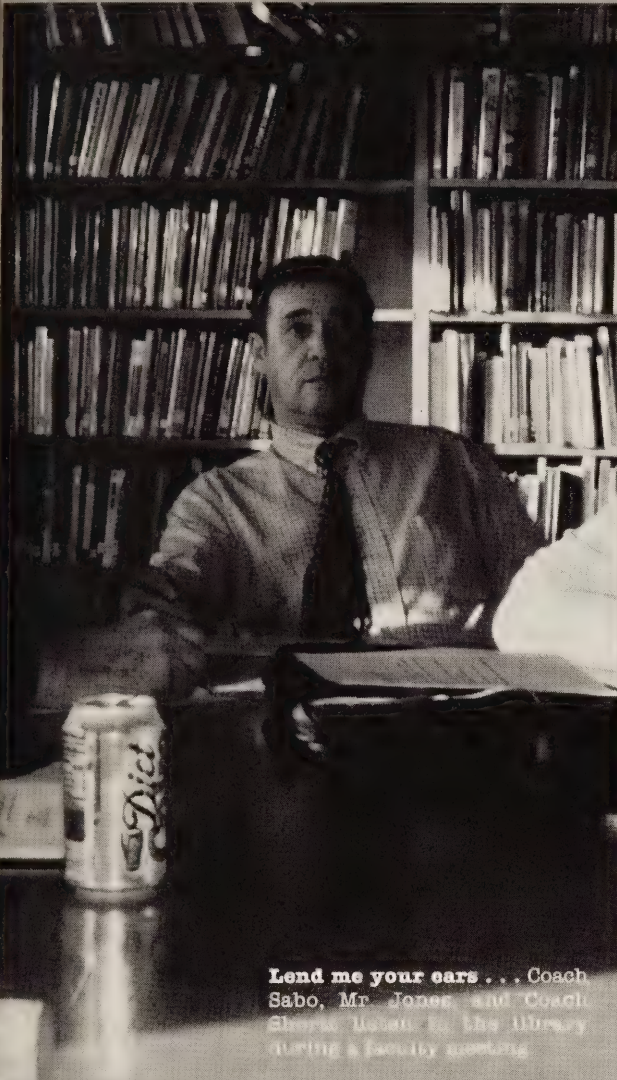

Many teachers had graced the halls for several years. Mrs. Miotke, Mrs. Wallace and Mr. Wells were

sometimes found in the unique situation of teaching more than one generation of the same family. Mixed in with new members, such as Ms. Proffitt and Mrs.

Wright, the faculty consisted of a variety of fresh faces and seasoned pros.

Teachers weren't the only familiar figures seen gracing the halls during the day.

Custodians, cooks, bus drivers, aides, and librarians all came together to make sure the day to day activities ran smoothly. Let's face it, without the faculty and staff, whether new or not, school would have never functioned.

TRUE Blue

Coaches Pondered the
Definition of Being a Dedicated Fan

What does being "True Blue" mean to you? According to various coaches and staff, the definition depended upon the person asked.

Athletic Director Butch Kiser explained, "Being true blue means being loyal to the best staff, coaches, and students in the world." while Track Coach Larry Shortt replied, "A true blue person is willing to be identified as a supporter of the Blue Devils in bad times, good times, and indifferent times — not a fair-weather follower."

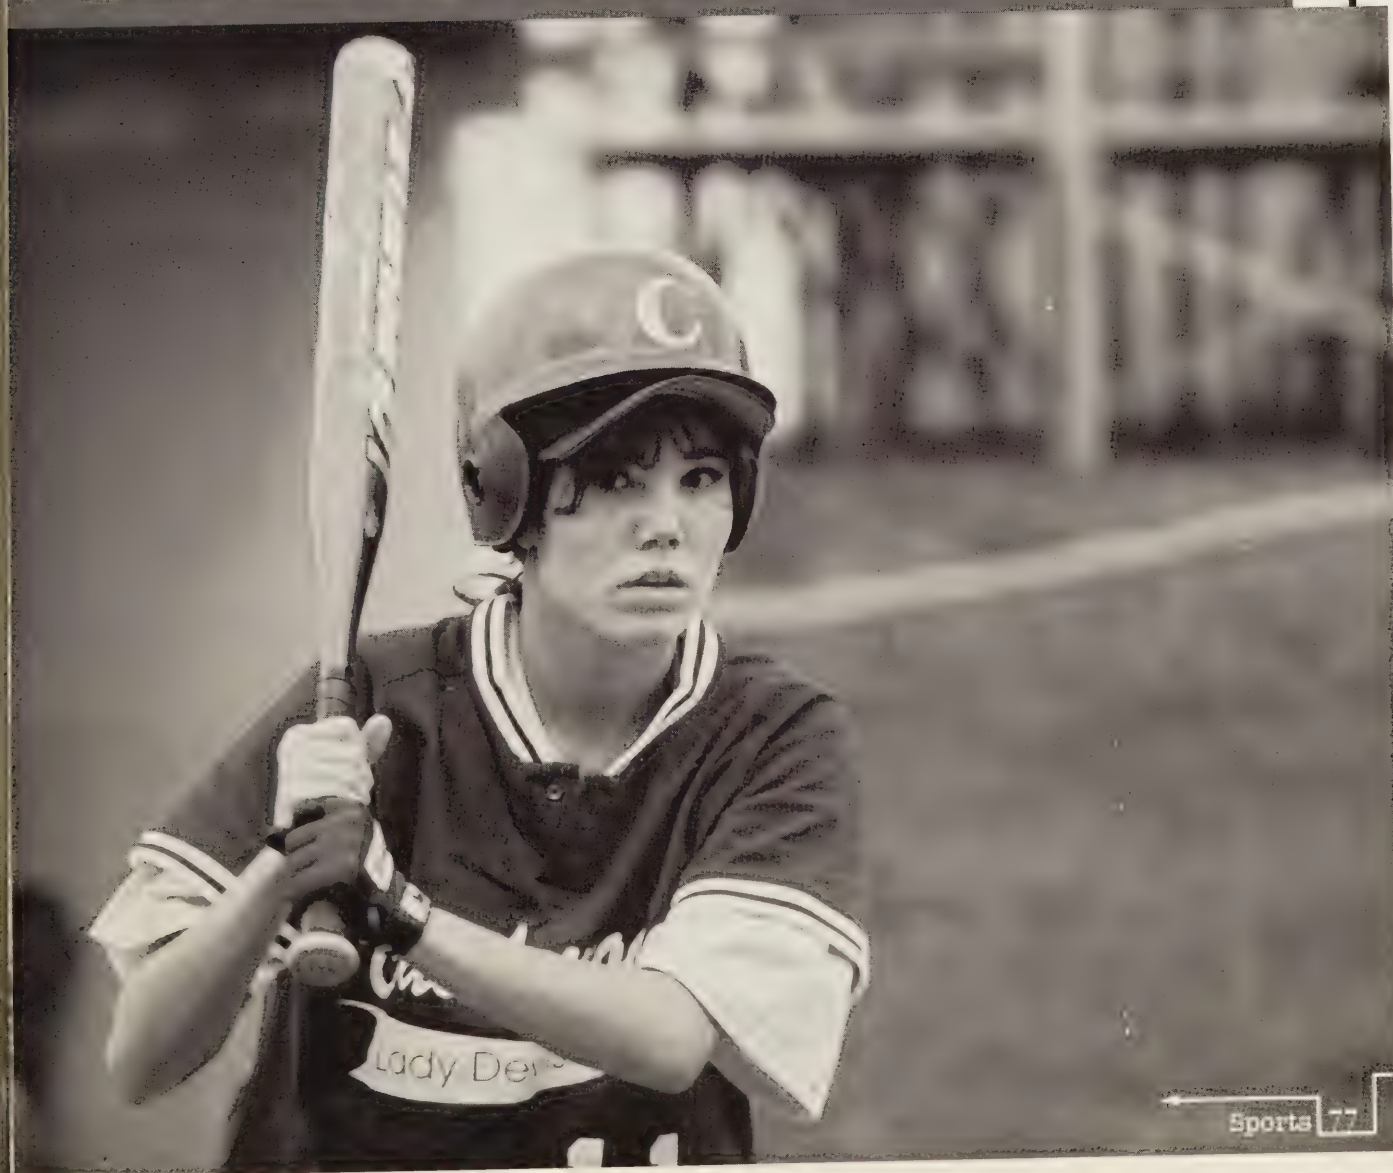

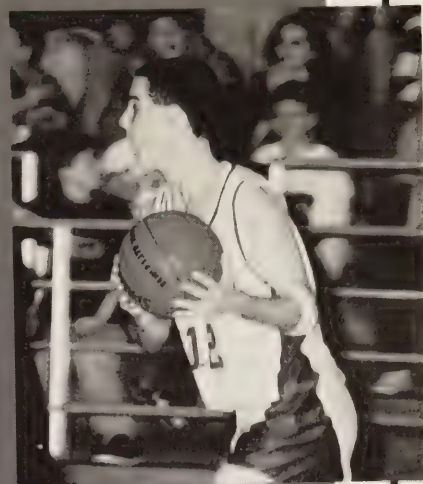

Many coaches believed the definition of this school spirited term lay in the attitudes of the players themselves. Softball Coach John Sabo stated students were true blue when they "spent time after the five day school week in order to make themselves better and the school more successful," while Wrestling Coach Darrell Taylor said, "showing your up-most pride, dedication, and desire in the attempt to become your best" was the real meaning.

Other coaches felt that self-sacrifice was the ultimate factor in being a true blue player. Basketball Coach Randy Poole stated, "It means being willing to make sacrifices that are necessary to become the best," while Football Coach Mike Roberson thought the real determining factor of a true blue player on his team was created "when an injury occurs and the blood flows — it'll bleed blue."

There was no question in these coach's minds — being true blue meant giving it all you had.

Sportin' the blue . . . (Clockwise from top left): Coach Roberson congratulates his Football Team after defeating St. Paul; Coach Sabo strategizes a Girls' Basketball play at a St. Paul game; J.V. and Varsity Basketball Cheerleaders combine forces; Senior Basketball Player B.J. Out of the Way!

Down, set, hut! These phrases could be heard a mile down the field as the football team went in for the attack. "It's been really fun coaching this year, this is one of the best group of kids I've ever seen!" exclaimed Head Coach Mike Roberson.

It all started in the summer as the group of determined young men held their first annual football camp on July 28-31. They trained heavily

with thirty minutes of aerobics every day and plenty of weight lifting. "If you've never seen this year's Seniors do aerobics, it

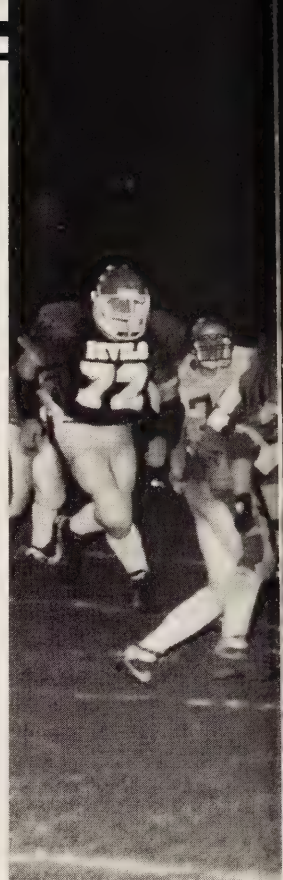

Football Team Broke Through with 6-4 Record

is a sight worth seeing!" said Coach Roberson, laughingly. Maybe it was the aerobics that did the trick, as the team

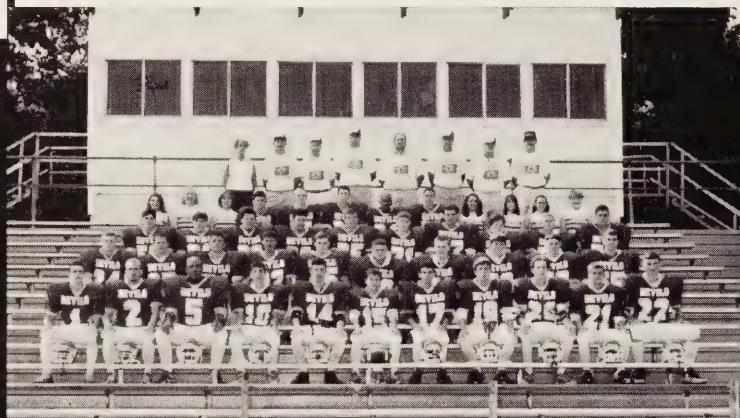

went from 1-9 the first year of Coach Roberson's coaching to a 2-8, and finally to a 6-4 record.

Fan support was also key to their success. This positive reinforcement was not missed by the players. Perhaps Junior Jared Coffey said it best when he stated, "When players would come to the sidelines and raise their hands up to the sky, the fans would give a standing ovation. It was the the best!"

The ladies kicked off their season with three straight wins before losing to county rival Honaker. The team believed they could make it beyond previous accomplishments and reach the state tournament.

After defeating Rye Cove in the first district matchup, they seemed to be headed down the right road. Unfortunately, the ladies ended the regular season with a record of 16 and 4

before heading to the District Tournament. They went into the tournament in third place, but came out as the District

Tournament since it was held on their home court. After taking an early lead against J. J. Kelly, they were ultimately defeated.

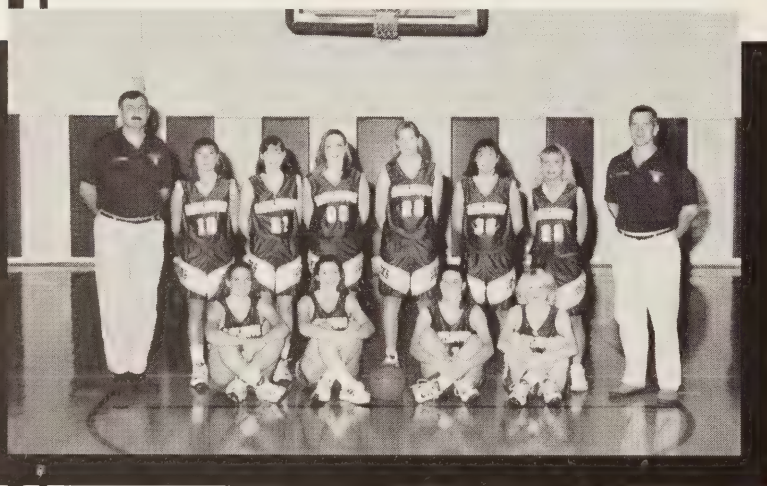

The season ended in a four point loss, but the team still achieved many goals. Kelly Salyer hit another 1,000 mark in rebounds, and the team was carried by their four Senior captains through a season of defense, offense, and all around good talent.

On Top of the Cumberland

The quest for greatness! That was what the Boys' Basketball Team strived for from the first of November until the last game. Tyson Huff summed it up best by saying, "All of those years of hard work paid off." With nine Seniors, plenty of underclassmen, and an overabundance of talent, the team got off to an uncharacteristically slow start. They suffered early losses to the John Battle Trojans and County Rival, the Lebanon Pioneers. This

early season slump seemed to motivate them and they responded by going on a winning rampage. The boys lit up the area with blazes of brilliance while winning

with eventual Group A runner-up John Battle.

With heart and desire, the team leaped over the Cumberland District and won both the Regular Season and the Tournament Title. The next challenge was the Haysi Tigers in the Region D Tournament. To everyone's dismay the boys' were defeated. After the loss, one of the nine elite Seniors, Casey Ruff remembered fondly, "I had a great time, I will really miss playing basketball here."

Diamonds Are a Girl's

The Softball Team had high hopes of clinching the State Title after being defeated in the State Quarter Finals previously. Everyone believed that this was the year to do it all. The ladies fell short, however, with a tremendous upset in the second round of Regionals.

The team started the season by going undefeated in District and qualifying for a first round bye in the Regionals held at Appalachia. They had to face the Honaker Tigers, and fans knew this was the game to see.

Softball Era Came to an End with the Exit of Five Seniors

With both teams having ace pitchers and a sound defense, not to mention a string of hard hitters, this game came down to the last pitch. When the game finally ended, no one expected the team to lose out so early. It was definitely a disappointment to an infamous team that was also losing five talented Senior players. However, no player could deny that they all had fun during a great season. It was like how the old saying goes, "All great things must come to an end."

At competition, once the sound of the stopwatch was heard, there was no turning back! That dreadful click pulled the character out and the individual in.

It's All Academic

The Academic Team Flexed Their . . .

When the word "Team" was mentioned, everyone automatically thought about sports teams, such as the Basketball Team or the Football Team. When the words "Academic Team" were put together in the same sentence, most students cringed at the thought of giving up their time to study when they did not have to. Well, that was not what was on the minds of this group.

Being on the High School Academic Team meant something to these students. It gave them a chance to show

off to everyone what brainiacs they really were.

With the help and commitment of Mrs.

Hackney and Mrs. Castle as their coaches, the Academic Team could not go wrong.

While dedicating their free time, both in and out of school, they studied for months for their numerous competitions. They worked together as a team and had a very successful year. The Academic Team faced any challenger that stood in their way, to beat them in a game of brain, not brawn.

Academics Created Different Goals for Different Students

As the busy days of classes and studying began, students prayed they would make the grade and move on to the next level. The possibility of failing a class sent shivers up the spines of many students. Others worried about making it into an elite group of honor students, BETA members, or honor roll nominees. Either way, at least by the end of the year, students realized the importance of Academics.

Class requirements changed and teachers began emphasizing the importance of Virginia's new Standards of Learning. Not only was it important to pass each class, do well on the SAT's and other standardized tests, but now it became crucial that new state guidelines were implemented in all the core area classrooms. Students in various classes were being prepared and tested to meet these standards.

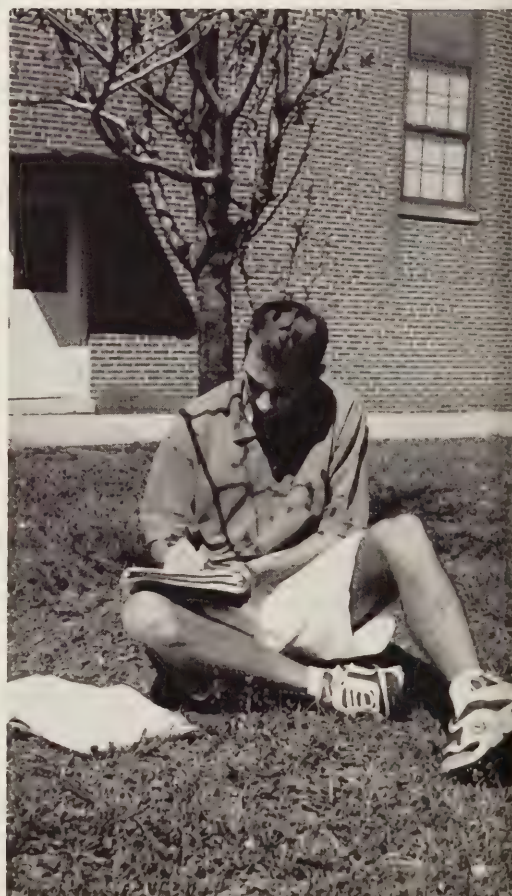

Students flexed their brain power, and the majority made it through. Some set their goals on the top ten, while others just wanted to avoid summer school. Students could be found in study halls, Saturday School, the library, and even outdoors cramming for tests.

Overall, the diligence of those who studied paid off as they proved they were the ones who eventually outsmarted them all.

The Vocational Students Were Prepared

for
LIFE

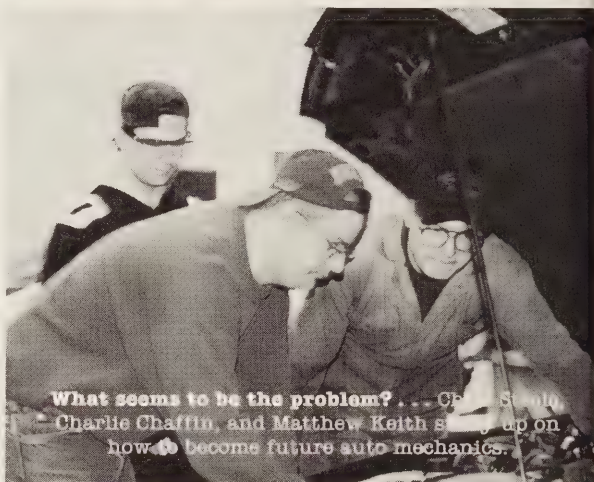

Are you ready? This was a question every graduating Senior faced. As they teetered on the edge of the wall that had separated them from the real world for thirteen years, they wondered if they were ready to take the plunge. Well, the vocational students could face this challenge with the satisfaction of knowing they were prepared.

The vocational school provided opportunities for those who had no desire to pursue college yet did have an overabundance of ambition. They knew they wanted to make a success of their lives so they chose to attend the vocational school. There they learned the everyday skills they would need to compete in society. Most of the students who attended would agree that it helped to brighten their future, as they took home job skills that would prepare them for a place in the workforce.

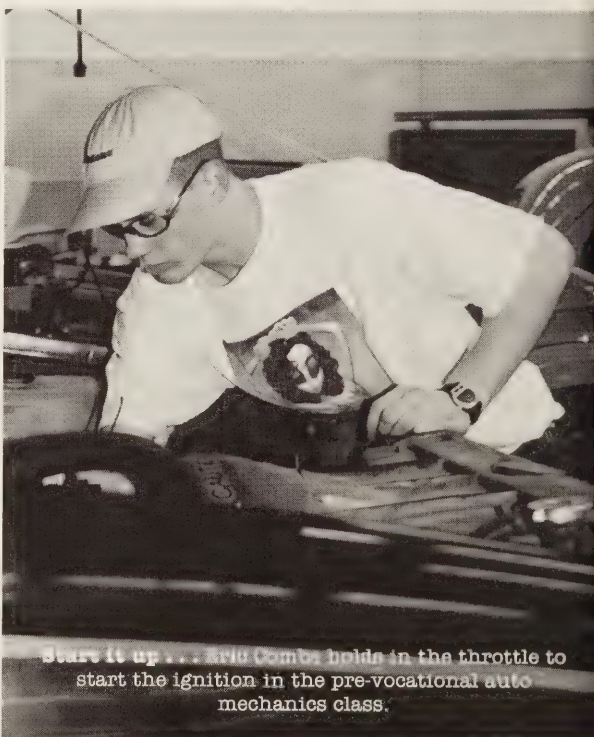

Vocational was not for everyone but those who chose to participate did not leave disappointed.

In Tune

band

The CHS band had a sound all their own. The band, small as it was, made a definite impact at the football games and pep rallies.

This group was always loud and full of spirit at the games. In efforts to improve the bandroom they had many fundraisers.

One of the most successful was selling cow bells. Not only did these colorful noisemakers help the band, it also added to the spirit of the game.

The choir also found some new spirit.

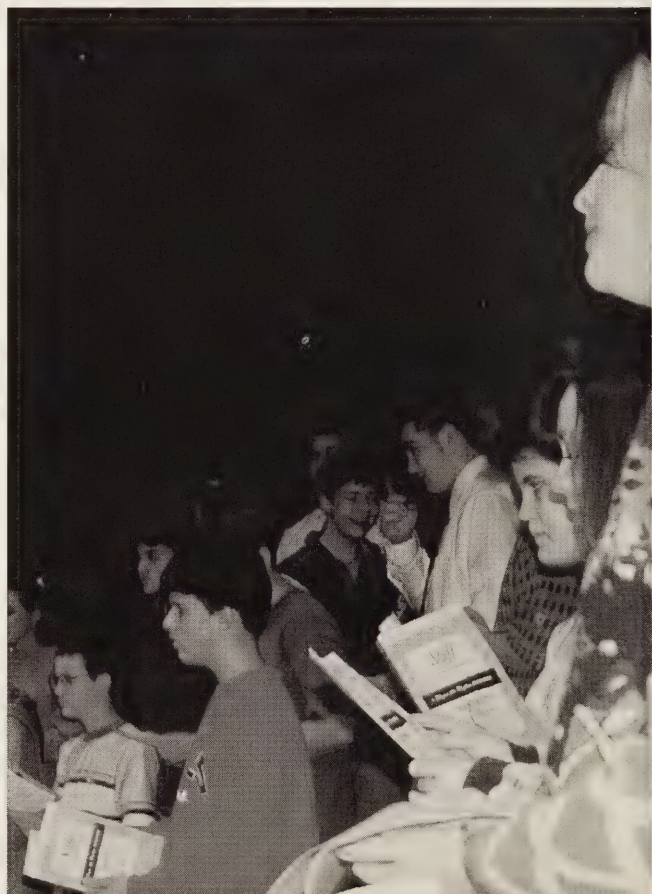

They were under the new direction of Mrs. Kim Wright. She soon had them singing in perfect harmony, which was not hard to accomplish considering the talent of this outstanding group.

The choir also had a chance to perform for the school and their parents during the winter concert. Even though the power went out during the school concert, the choir students ended up

Making Up For Some Lost Time

Students Clocked in Many Hours after School

Coming to school on Saturday seemed cruel, but for many students it was a blessing in disguise. Students were given the chance to have their absences erased by staying after school or coming on Saturdays for make-up time. Going All *OUT*

Being a Club Member Meant Pulling Extra Time

Between all the tests and ballgames were the club activities. At the beginning of the year, students had to make tough choices and decide exactly which clubs they wanted to join.

Clubs stepped in and contributed their time and money. In exchange, classes were stopped to allow members to meet and plan various trips, fundraisers, and other assemblies. Whatever the club, there was a major event to organize.

In addition to their regular functions, the SCA started the first-annual talent contest and purchased an electronic sign for the foyer. The FBLA was busy all year from business competitions to their annual Dollywood trip in Pigeon Forge. New organizations such as the French Club went to The Biltmore, while the Spanish Club traveled to ethnic restaurants and participated in Child Abuse Prevention Week.

BETA continued their service to the tutoring program, while SADD once again participated in Prom Promise. FHA decorated cakes and visited local rest homes, and newcomers SODA and sister program PALS, became mentors for elementary students. The Library Club learned how to organize books and collect fines, and the Ecology Club improved the school grounds and traveled to Natural Tunnel.

A GROUP

We want, we want, we want. The SCA both entered and left the halls hearing these fateful words. At times, the wants of the whole made the needs of the few obsolete. The SCA members worked diligently to make everyone content.

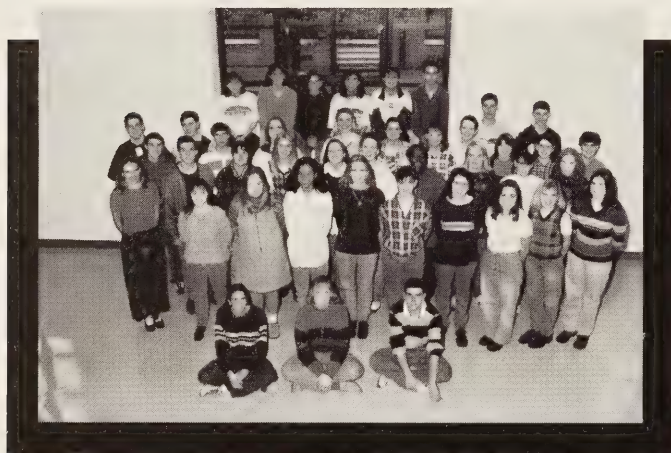

The SCA also rang bells for the Salvation Army and even survived organizing all of the homecomings. Decorating the football field and the new gymnasium for these nights took more effort than most people realized.

The SCA Gave Their All

The Student Cooperative Association brought joy to the hearts of many when the White Christmas money was collected. They happily gave from their hearts as they distributed the funds to four of the less-fortunate students.

Even though the SCA seemed like a lot of trouble, it was more than that. This club gave people a chance to be themselves and help the student body. All in all the SCA members proved their true worth by helping the school improve.

Pioneering

For years, students attended French and Spanish classes. These courses had always been worthwhile, but learning was limited to the classroom and a few field trips. Finally, an opportunity for even more fun was provided.

These new clubs got involved in some important and noteworthy activities. The Spanish Club participated in Child Abuse Prevention Week, and the French Club toured the historic Biltmore in Asheville, N.C.

French and Spanish Clubs Were a New Tradition

French teacher Ms. Stevenson and new Spanish teacher Miss Proffitt saw a need for these bilingual students and, so they decided to create and supervise the formation of the two new foreign language clubs.

How the school survived all that time without Spanish or French Clubs was a mystery. At last two innovative and motivated teachers, and some excited and pioneering students, began a much needed tradition.

SADD did more than discourage drinking. The members made students aware of the dangers of drug abuse. This wake-up call was important, since students knew better than anyone how to communicate with their peers.

Prom Promise was another way that SADD emphasized sobriety. Students signed this pledge to keep everyone on the road safe on Prom Night. When graduation came around, the Seniors were encouraged to honor the promise.

SADD Gave A Wake-up Call

At a workshop sponsored by the club, guests were invited to discuss topics such as the tragic risks that occur due to irresponsible choices. Many group sessions took place. The entire student body was urged to attend this event.

Because of SADD, students were aware of the purpose and importance of staying away from drugs. Members kept the student body informed about drugs and alcohol, and worked diligently and creatively for this important cause.

The Ecology Club was one to admire. The members participated in improving the school by designing and planting a beautiful flower bed above the brick wall in the student parking lot. The flowers were paid for with the money

tickets to pie Coach Roberson and Coach Poole in the face — they made a LOT of money!

The members were rewarded for all their work with a day of adventure. They went spelunking at Natural Tunnel State Park. Also,

earned through various fundraisers. Among these were the sale of Christmas goodies and half and half tickets at the basketball games. Also, the Ecology Club helped out with the yearbook signing party. They did this by selling

they participated in the March of Dimes Walk America at Pittston.

In Ecology, being involved was not a chore, it was a privilege. The club was one of many, but according to its members, it was by far the best.

Words of Wisdom from your Club Officers

"People need to do their share to improve the environment. Being a part of the Ecology Club has allowed me to do my part."

—Natasha Ring, President

"I liked being Vice-President of the Ecology Club because it is the best club."

—Tanner Dotson, Vice-President

"As Secretary, I learned the importance of improving the school and the environment."

Serving it Up Right

Cafeteria Manager Honored With Yearbook Dedication

There are not many people that will always, without question, just drop everything to lend a helping hand. A person such as this would definitely have to be extra special — a person like Mrs. Nell Banner, Cafeteria Manager.

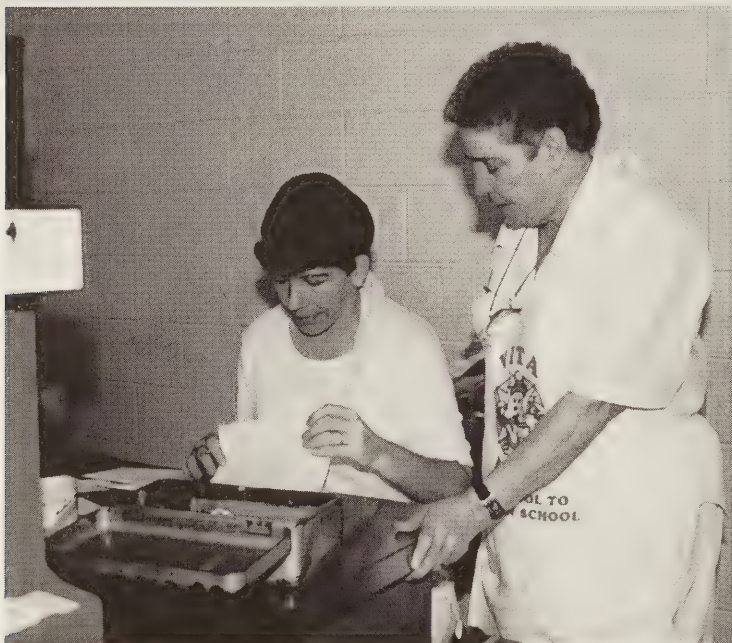

"The children, that is the number one reason why I am here," answered Mrs. Banner when asked the question, *"What is the best thing about our school?"*

Getting up at five o'clock in the morning to get to school by 6:30 a.m. is an every day task for her. *"The early bird catches the worm, that's the old saying. I take it to heart,"* explained Mrs. Banner.

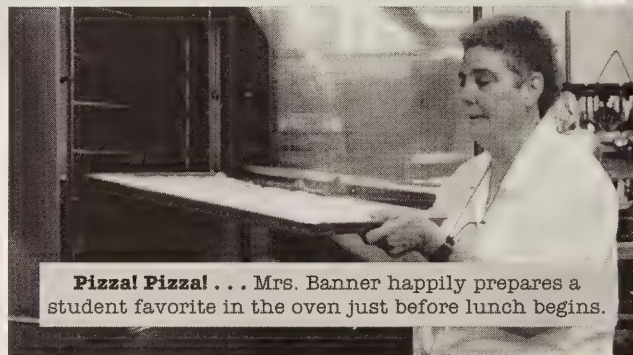

Whether she stays overtime to fix the BETA Club meal, which is always scrumptious, or tallies figures for the lunch room, which she doesn't love to do, she always gives her all to make our school a better place.

Working eight long hours on her feet is nothing to this dedicated individual — she takes pride in her job. She has worked for twenty-seven years in the school cafeteria. *"She is extremely dedicated, and loyal to her staff, students, and to the school,"* replied Coach Kiser, Administrative Assistant.

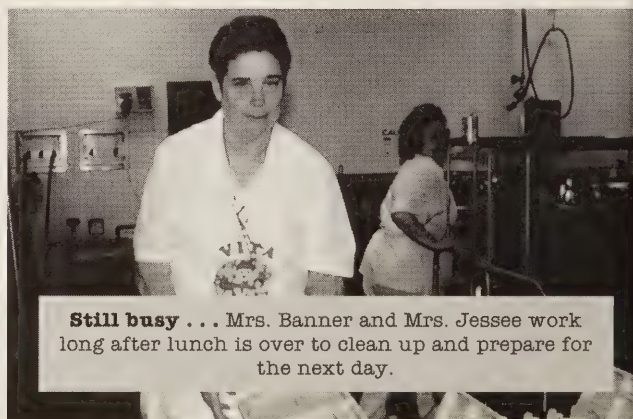

There are few that deserve the recognition we would like to bestow upon Mrs. Banner. The students and staff appreciate everything that she has done for us. She is committed to our school, and she makes sure the job is finished. Anyone that has had the opportunity to work with this wonderful woman has seen what an outstanding individual she truly is. Mrs. Banner's earnest dedication to this school and its students are deserving of our undying gratitude, and her sacrifices here will never be forgotten.

Helping those in need . . . Mrs. Banner is glad to assist Mrs. Collins with the daily lunch figures after a long day of work in the cafeteria.

Pizza! Pizza! . . . Mrs. Banner happily prepares a student favorite in the oven just before lunch begins.

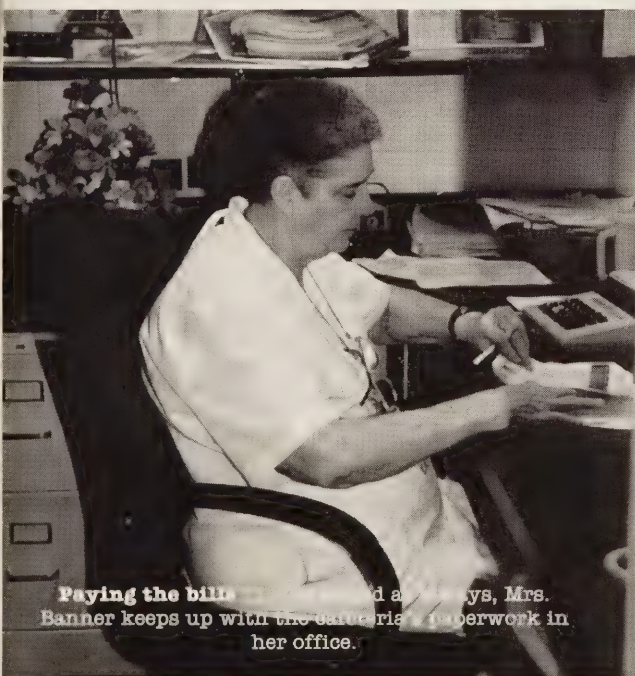

Still busy . . . Mrs. Banner and Mrs. Jessee work long after lunch is over to clean up and prepare for the next day.

Paying the bills . . . and all day, Mrs. Banner keeps up with the cafeteria's paperwork in her office.

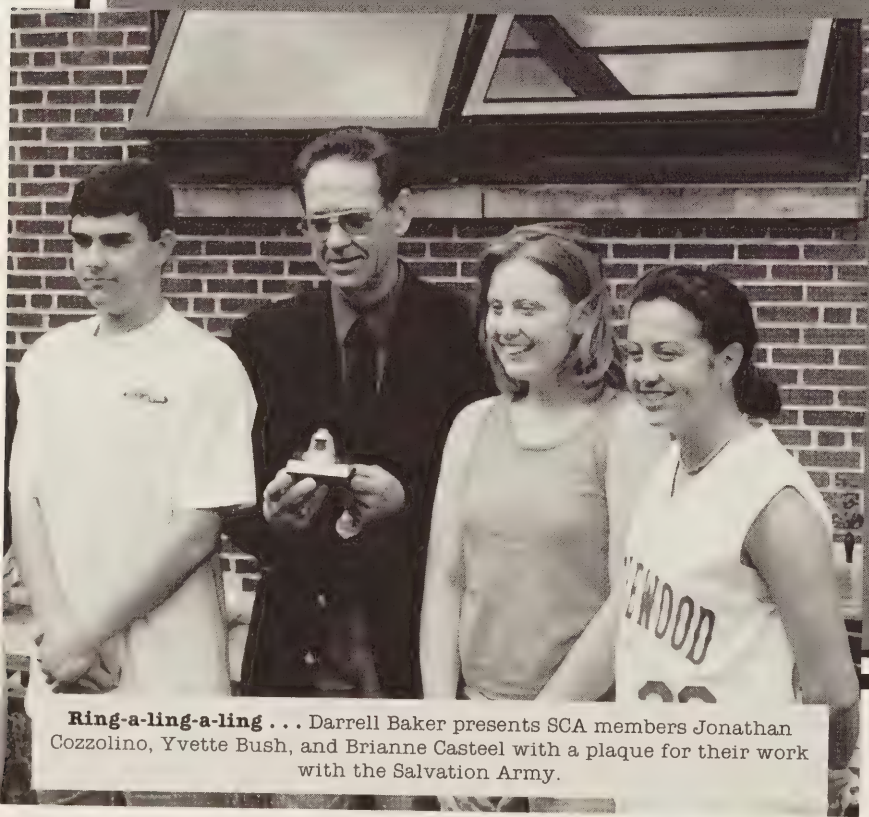

"My grandmother is a very nice person to get to know, and if you go to breakfast she will make you happy every morning. She will do anything for her children and her grandchildren when she can and when she has the time. All of the children at C.H.S. will always remember her because of the good meals she has cooked for us the past 27 years." —Ashley Banner, Freshman and Granddaughter

"Mrs. Banner is like a second mother to me. She is concerned about people and the students. She works hard to please students with meals and her kindness."

Teacher and Cafeteria Monitor

Business

Advertising and Community
Involvement was a Key Role in School's
Success

Without local business support, this yearbook, along with other school publications and events, could never be possible. In addition, community involvement by students was key to the success of various group activities.

The journalism class and business department sold advertising space to cover expenses. This required hitting the pavement and becoming experts at salesmanship.

Yearbook staffers began the year by traveling to local patrons and asking for their support. The pages that follow are indications of their loyalty. Then, Mrs. Allen and her business students ended the year by calling many of the same businesses to ask once again for them to dig deep and donate money to keep their department running. These ads could be found the following year in several football programs.

Regardless of the fact that area businesses were constantly bombarded with requests and open palms, they almost always gave in and showed their support to the school.

During the year, activities such as the Youth Basketball League and the Salvation Army Bell Ringing proved that students cared enough to give back to the community, while others joined the work force early and put in time at local businesses to earn their own money.

Our Sign Says It All.

Our big red sign has been a strong symbol of banking for Virginians and a familiar sight in our area for a long time. We're proud of being part of the oldest bank holding company in Virginia . . . and of remaining a community bank with local directors and hometown management. We think that's important because it gives us a unique, very personal understanding of the financial needs of the people we serve. Take a good look at our sign. We're proud of what it says about us and what it means for our community.

Many people thought Junior Heath Francis was crazy when he lost 20 lbs. to wrestle in the 103 lbs. division. They soon discovered they were wrong, however, when after a healthy diet and exercise plan, Heath captured the State Championship.

Coach Taylor remembered, "There was a lot of dedication and committment on his part, and I believe he has set a good example." Heath had a more immediate concern and exclaimed, "Now I can eat again!"

Whole Lotta Talent!!!

SCA Sponsored First Annual School-Wide Talent Contest

Talent Contest Winners... Rebecca Meade, Michael Patrick, Duran Dutton, Timothy Mullins, and Becky Townes.

Performance talent is a rare gift given to a select few. However, performers rarely got the opportunity to display their talent to the student body. So, the SCA decided that these star-studded students needed their due credit and recognition. Amanda Saddler, Nana Broadwater, and the SCA officers pulled off the assembly of the year.

The talent turnout was incredible and competition was fierce. The events ranged from vocal performance to gymnastics. It was a shame that only three of the contestants could be declared winners. However, Mrs. Sabo explained, "As far as I am concerned everyone was a winner."

The winners were: 1st - Duran Dutton, Coaley Townes, and Timothy Mullins; 2nd — Michael Patrick; and 3rd - Rebecca Meade.

"I was shocked, happy, and exhilarated all at the same time!", exclaimed Becky. "I felt like an idiot, but it paid off well!", Michael stated. Duran summed it up by simply stating, "It was great!"

As students left the auditorium they felt a sense of surprise and admiration for peers they now realized had a whole lot of talent.

Bible Club Started by Inspirational Art/Choir Teacher and Faithful Students

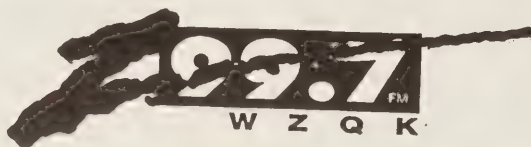

Bible Club... FRONT ROW: Jennifer White and Mrs. Wright. BACK ROW: Jason Helbert, Rachel Meade, Rebecca Meade, and David Puckett.

For several years, individuals felt the need to restart the Bible Club program. Art teacher and choir director Kim Wright, along with some strong-willed and spirited students, met that need.

"It was something the school really needed and it is making a difference," replied Rebecca Meade, who was not only a member but also the President of the newly revived club.

Senior Sonja Davis agreed by saying, "I think it is great that people have finally brought the Bible Club back into the school." Fellow Senior Shauna Phillips added, "It is about time kids began to learn about the Bible and not be ashamed of it."

Although the club began late in the year and was just beginning to get organized, Mrs. Wright expressed high hopes for this aspiring group.

CONGRATS!

This section is dedicated to the members of the Senior Class. These students worked for 13 years to reach their upperclassman status. Senior Year was a year to be proud of, and no one was more proud than their own family and friends.

Though the year was hectic at times due to government tests and after-school jobs, this group of Seniors' loved ones knew they would always be on top, and for that, they were sincerely congratulated.

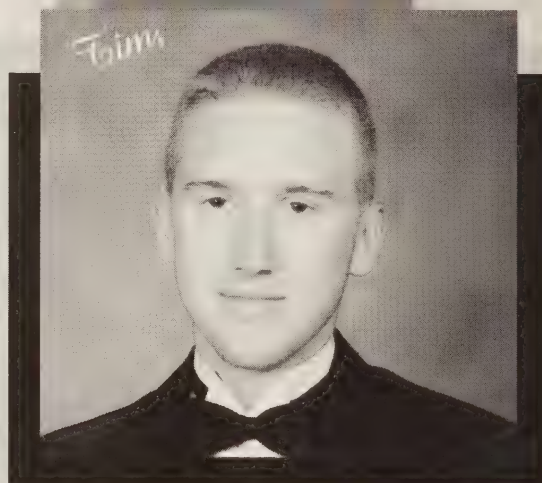

*We admire and respect the wonderful person you are. We love you with all our hearts.
You are our joy.
Love, Mom and Dad*

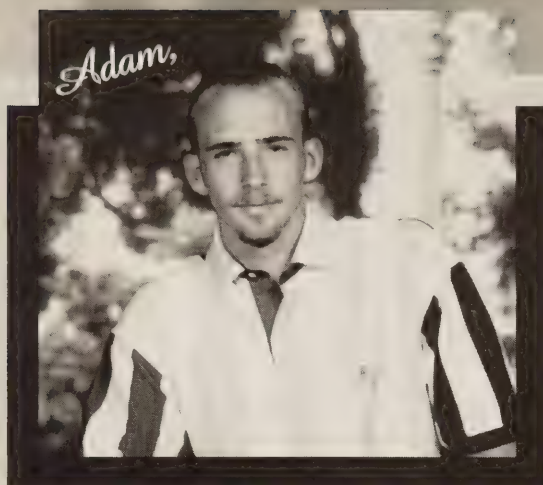

*You make us proud, girl!!!
Love,
Mom and Dad*

*Roses are red. Violets are blue. Lisa is cute, and she's graduating too!
Congratulations! Love, Mom and Dad*

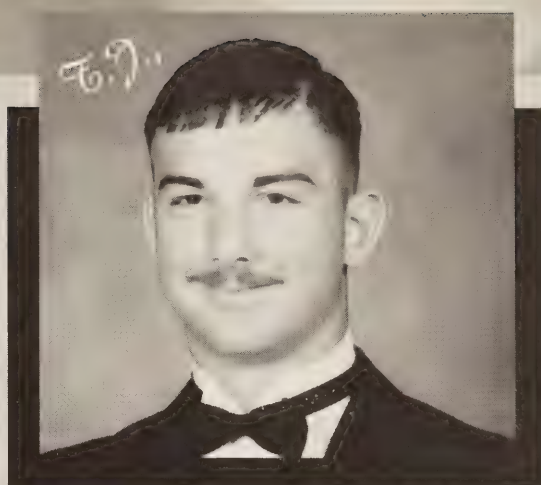

*Congratulations, Tim! We're proud of you,
With all our love,
Mom, Dad, and Chris*

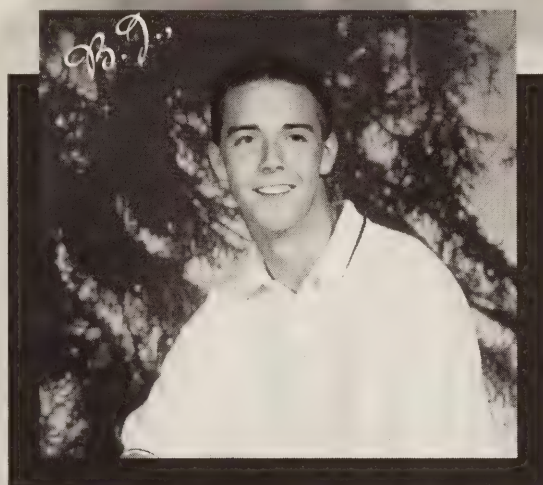

We're very proud of your completion of this phase of your education! This is just the beginning of many accomplishments you will complete.

Love, Mom & Dad

Seems like only yesterday that we were blessed by a special gift from God to brighten our lives. You have always been a very special boy, who has made us very proud to be your parents. We know you will continue to do so as you continue your education and prepare to face adult life. Always remember to put Christ first in your life and he will help you face anything.

We love you, Mommy and Daddy

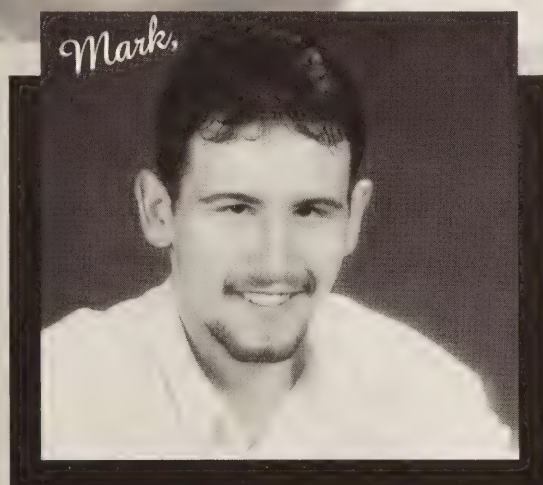

CONGRATULATIONS SON!!! You've accomplished an important step. Keep walking and you will achieve your goals. Always remember three things, PUT GOD FIRST. YOU CAN DO ALL THINGS THROUGH CHRIST WHO STRENGTHENS YOU. MOM AND DAD WILL ALWAYS BE THERE FOR YOU.

Love, Father & Mother

Congratulations! We are very proud of you! We love you and will always be there when you need us. May your life be full of happiness and success.

Love, Mom, Dad, and Heather

Congratulations!

We love you, and we'll always be here for you.

Love, Mom and Dad

Congratulations!!! We all are so proud of you and the many things you have accomplished. As you go to college, remember to keep up the good work and you will be able to be anything you want.

Love, Mom, Dad, & Jarred

(P.S. I will be here if you ever need me. Love, Mom)

Basketball Team Helps Community's Youth and Becomes Role Models

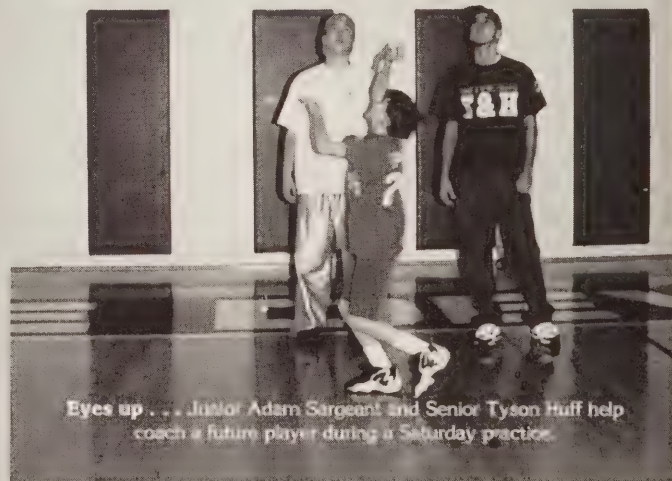

Dribble, Dribble . . . and . . . Swoosh! It went in! The fans went wild, but wait! Were those really basketball players? These little people could not actually play basketball, *could they?*

The Youth Basketball League was started 14 years ago by Coach Randy Poole. The league was divided into grade divisions: K-1, 2-3, 4-5, and 6-7, and ran from mid-November to February. For the past four years, the league has sponsored invitational Youth League Tournaments. The parents hosted the tournaments with the help of the teams and coaches. The goal of the Youth Basketball League was to generate interest in the sport; teach fundamentals of the game; and instill good sportsmanship at an early age.

This young generation may not have looked like basketball players, but they certainly caught glances of many people. It also helped the Boys' Basketball Team understand their position as role models to future players. Senior Casey Ruff said, "It was great being a leader to the youth of our community."

Expensive Shoes to Fill

When fifty students were asked how many shoes they bought throughout the school year and how much they would pay for one pair, the numbers were outrageous. A total of 266 shoes, both tennis and dress shoes, were bought. An average of \$115.28 was paid for tennis shoes, while dress shoes were purchased at an average of \$87.48.

What will you do IF THEY GET INJURED?

Treating an injured athlete requires special training, quick response and an understanding of 'the game'. In an effort to meet the specialized needs of injured athletes, The Regional Rehab Center at Norton Community Hospital proudly announces the addition of a new service: The Sports Clinic. The Sports Clinic is primarily concerned with returning the rehabilitated athlete to the highest level of competition possible -- as soon as possible.

Through a comprehensive approach to screening, assessment, treatment, and rehabilitation, the Sports Clinic provides appropriate care for the region's high school and college athletes.

Athletes, parents, and coaches can be assured that the latest modalities, equipment and professionally trained staff are available.

Services of the Clinic include annual physicals, screenings, assessment, treatment, rehabilitation, conditioning and training.

You need not be a member of an

organized team to take advantage of the services offered by the Sports Clinic. You will find that our team is aptly prepared to care for all types of patients -- from the weekend warrior injured during a 'pick up' game to the community bowling league. All injuries related to sporting or outdoor activities are welcome.

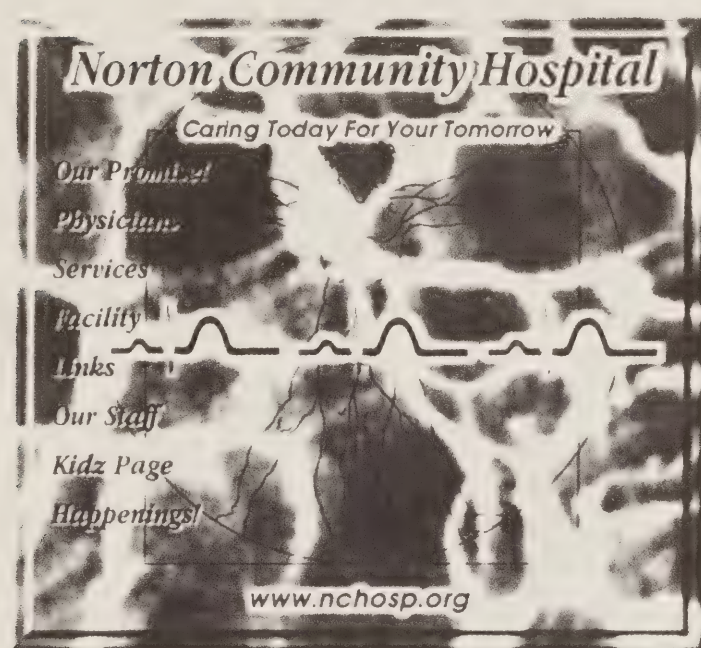

The Sports Clinic is staffed by the most well trained professionals in the region: Dr. Steven Prince, Medical Director; Shane Dixon, Physician Assistant; Robby Bates, Jr., Certified Athletic Trainer; Julie A. Hoffer, Director of Rehabilitation; and Steven Ray Childers, Exercise Physiologist.

If you would like more information regarding the Sports Clinic at The Regional Rehab Center, call us at 340-679-9799. Our offices are located next to Norton Community Hospital in the Norton Square Shopping Center on Park Avenue.

The Sports Clinic is an affiliate of Norton Community Hospital and Wellmont Health Systems

Living in a Constant State of

The Yearbook
Staff Created the
Best Yearbook
Ever, Part II

CHAOS

Have you ever heard of anything like it? Wanting to pull out your hair over one simple class? Well, for members of the Yearbook Staff, it was an everyday dilemma.

There were many days when it seemed impossible to meet deadlines. Some days deadlines were *not* met, and the guilty students paid the price. There were also days when tempers ran short and feathers flew. But, in the end, sense of humor prevailed.

We were constantly reminded that when the yearbook was finally finished, it would *ALL* be worth it. That was hard to believe considering that most of the time we were running around in a state of chaos wishing we could bash the computers with sledgehammers. Eventually, however, we realized it was true. The proof is in these 184 pages.

(Amanda, Nana, Alesha, & especially, Lisa — Thanks for all your extra help. You guys make me proud! — Love, Ms. G.)

Team work ... The yearbook staff shows how they depend on each other while hanging out in front of the school.

Colophon Explains how Many Little Details Went into a Much Bigger Yearbook

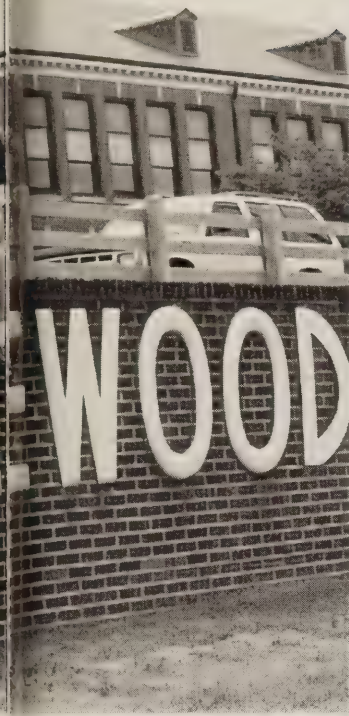

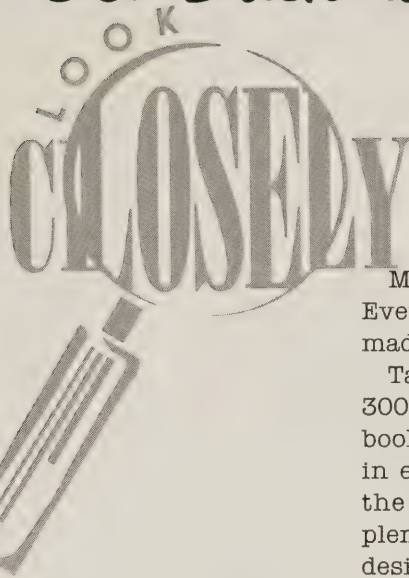

Many small details went into the Best Yearbook Ever, Part II. There were many decisions to be made and *nothing* was overlooked.

Taylor Publishing, in Dallas, Texas, published 300 copies of our yearbook. The size of the yearbook is 7 3/4" x 10 1/2", and there are 184 pages in each book, (8 more than usual!). In addition, the four-color Yearzine was added as a supplement between pages 160 and 161. The cover design, which is in 3-D, is S92 with silver name stamping. The end sheets are classic white.

Backdrop BD44BW was used in the Ads Section, and the type used in the yearbook was American Typewriter, (with some exceptions). Size of body copy is 10 points, and captions are 8 points.

Olan Mills, in Bristol, Tennessee, supplied various team, group, and action pictures, in addition to some candid shots.

Quality Control Team:
Lisa Jessee, Layout;
Amanda Saddler, Copy

Behind the scenes . . . Just like the details in this book, there are many viewpoints to an old familiar sight.

Crossing the Finish Line

The School Year Finished Strong

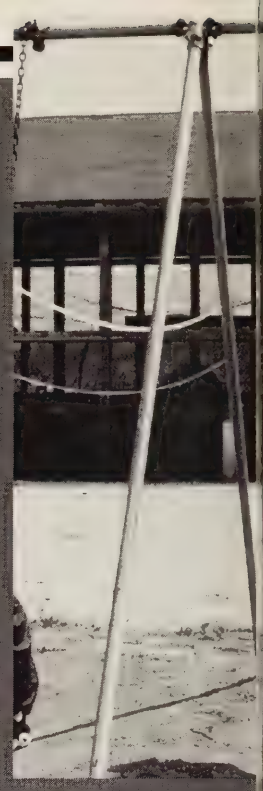

As the checkered flag was dropped on the end of the year, the yearbook staff and the entire student body were proclaimed uncontested winners. Though there were several yellow caution flags along the way, everyone managed to cross the finish line. And, even when progress was temporarily stopped when a red flag was dropped for snow days, everyone picked back up and reluctantly, but hopefully, started again.

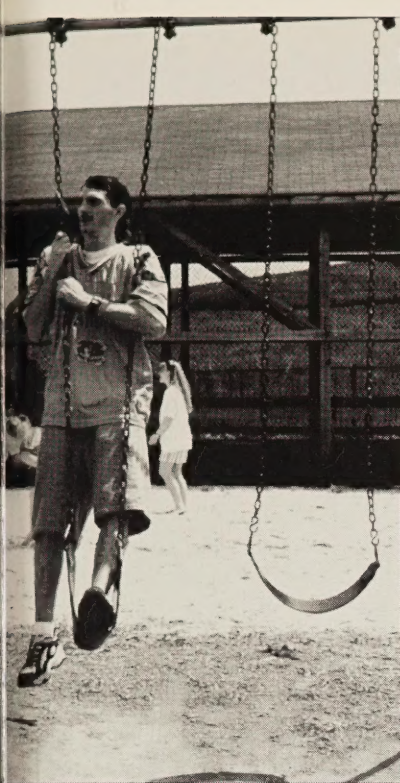

From the first pep rally to the final day of classes, everyone revved their engines and sped through another year of school. All the while, the journalism team raced along trying to keep up and cover it all.

The student body made a few pit stops along the way as they adjusted to the new attendance policy, make-up time, and various other unexpected bumps in the road. Somehow, most of them managed just fine.

At the closing of the year, those who kept their eyes on the road, landed in the winner's circle as they earned their first-ever exam exemptions. Most agreed that keeping up their grades and trudging off to school on Saturday mornings really *was* worth it in the end.

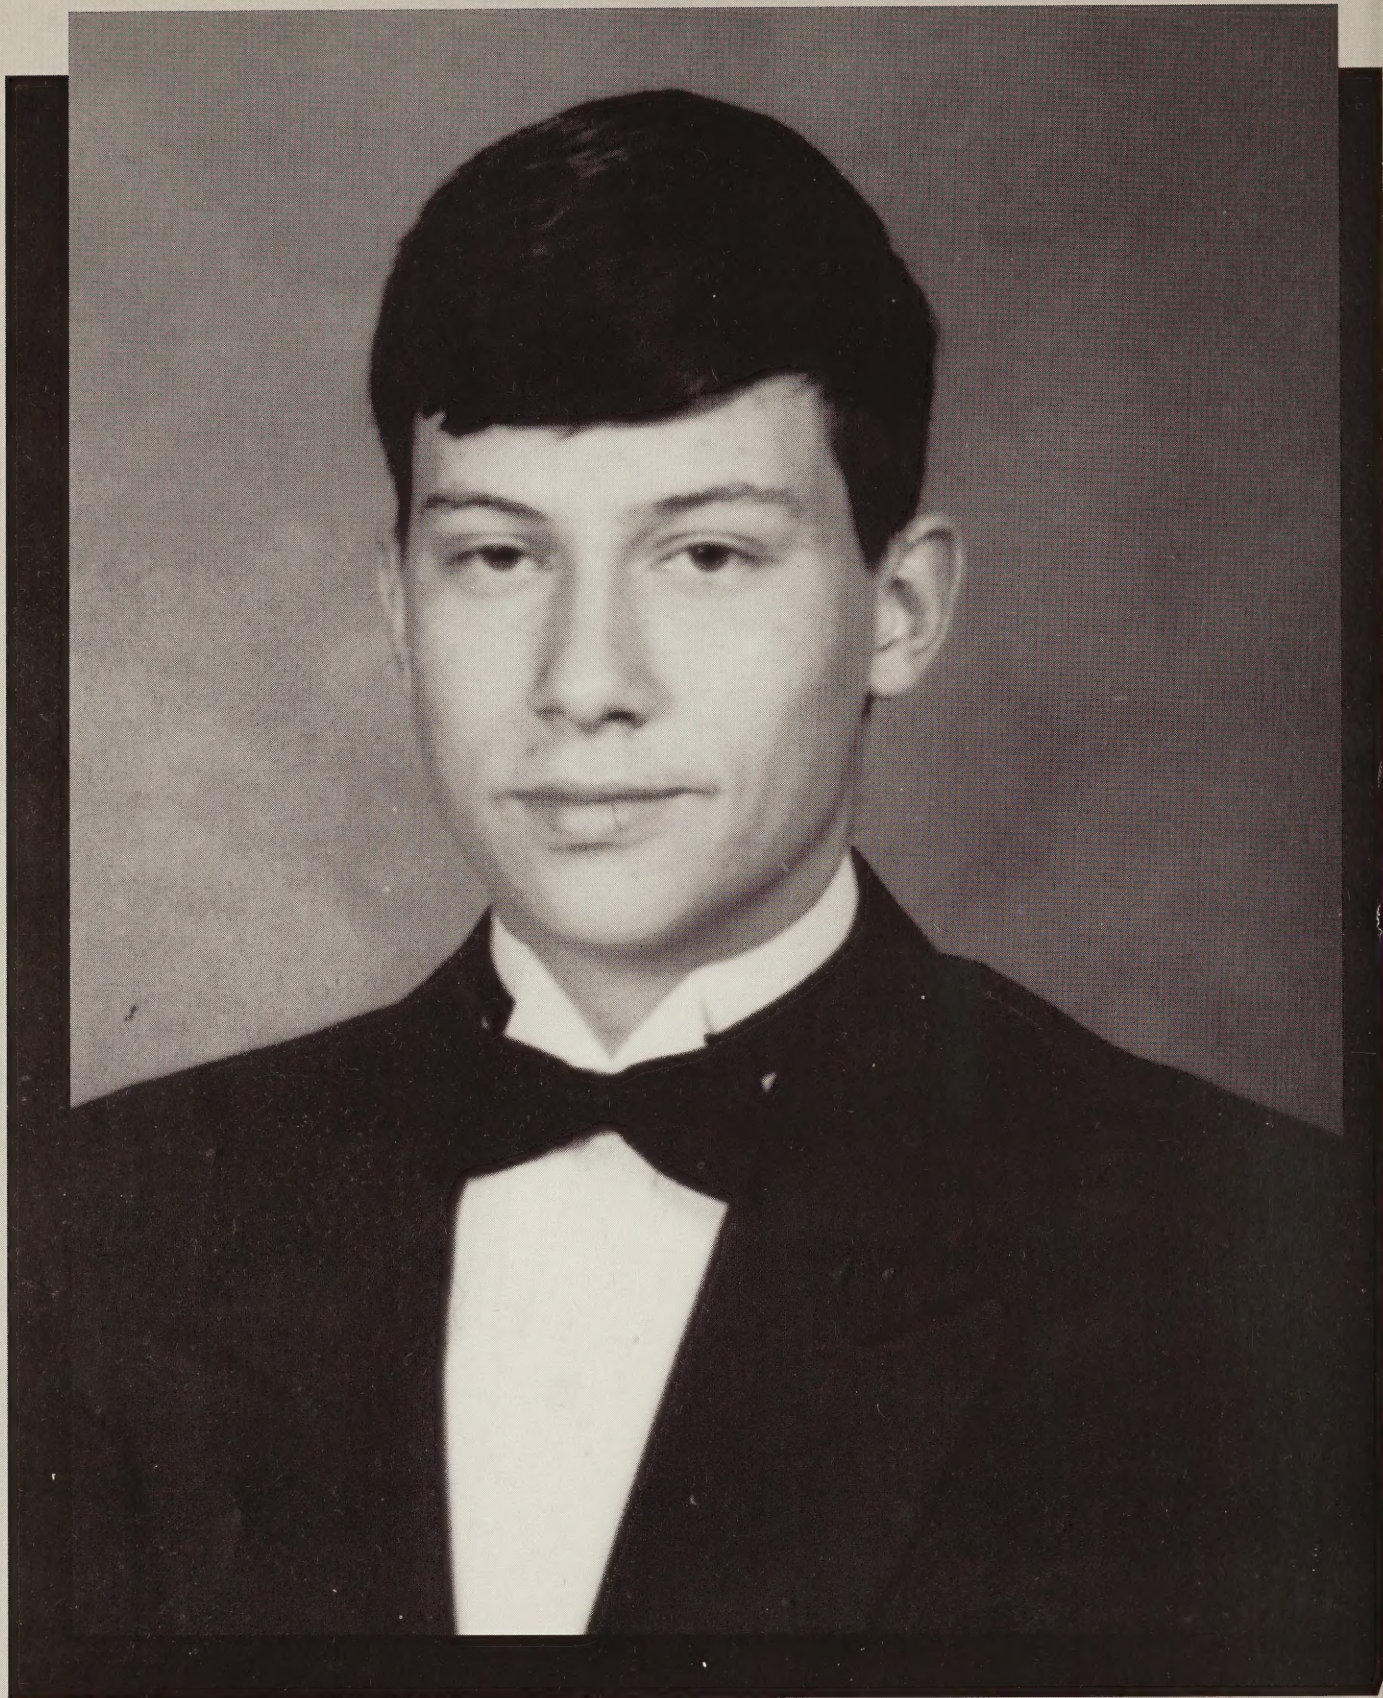

Whether a student sped ahead and crossed the finish line in first or whether they slid in sideways just to finish at all, almost everyone successfully made it to the end of another year-long race through school.

Almost over . . . (Clockwise from top left): New SCA Officers Jonathan Cozzolino, McKinsey Huff, and Travis Jessee are inducted at the Awards Assembly; Brian Brommer enjoys the Senior Day Picnic; Senior Heather Kenyon gets a goodbye hug from Coach Poole; Juniors Crystal Smith and Billy Wright dance the tango as the year draws to an end; and the Senior Class says, "Hats Off!" to a great year.

In Loving Memory
